

Project Design Phase-I
Solution Architecture

Date	19 November 2023
Team ID	Team-593004
Project Name	Restaurant Recommendation System
Maximum Marks	4 Marks

Solution Architecture:

Designing a solution architecture that utilizes AI to enhance the restaurant discovery process for users, ensuring they find the perfect dining experience tailored to their preferences.

A user-friendly interface that allows users to input their preferences, search for restaurants, and receive personalized recommendations.

An NLP module that interprets user queries, extracts relevant information, and analyzes restaurant descriptions to refine search results and recommendations.
